**FOR IMMEDIATE RELEASE**

## **Right Hemisphere Nabs Its Second MT2 Award for Making a Significant Impact on Military Training in 2005**

*Right Hemisphere Again Honored as an “Up and Coming” Star by Military Training Technology Magazine in Annual “MT2 Awards”*

**January 18, 2006, Fremont, CA**—Right Hemisphere<sup>®</sup>, a leading provider of Product Graphics Management (PGM) software, today announced it was honored with a 2005 MT2 Top 100 award from Military Training Technology Magazine for making a significant impact on the military training industry. This is the second consecutive year Right Hemisphere has garnered the award. In both 2004 and 2005, Right Hemisphere was honored in the “Up and Coming” category, which designates companies that are quickly becoming rising stars in the military training community. Award recipients were selected by the magazine’s editorial board and a panel of independent experts based on various criteria including total military sales, end-user feedback, innovations, and the need for its solutions.

“Training is an important mission across every branch of the military. As system and equipment complexity has increased, so too has the need for better training content utilizing 3D graphics. Consequently, this requires enabling technologies,” said Bob Eve, vice president of marketing at Right Hemisphere. “We are proud of the operational efficiencies our defense customers have realized using our Product Graphics Management technology, particularly our Deep Server software, and gratified to have our part in those accomplishments acknowledged by Military Training Technology.”

Deep Server<sup>™</sup> is Right Hemisphere’s flagship PGM product. Deep Server integrates CAD/PDM/ERP and publishing applications, automates “Part to Publishing” processes for 2D and 3D product

graphics, and manages product graphics across the extended enterprise. For more information about Deep Server, visit <http://www.righthemisphere.com/products/dserv/index.htm>

Military Training Technology is a magazine dedicated to military training as a critical component of command readiness and service transformation. The annual MT2 Top 100 awards program is open to any company to apply. The magazine and its publisher, Kerrigan Media International Inc., also invite more than 300 candidates to submit entries for consideration each year.

### **About Right Hemisphere**

Right Hemisphere is the leading provider of Product Graphics Management (PGM) software. PGM is a new category of enterprise software that supplies the right product graphics in the right format, right now for technical publications, interactive training, marketing communications, design collaboration, and more across the extended enterprise. Five of the top six automotive OEMs, nine of the top 10 aerospace and defense contractors, and hundreds more customers rely on Right Hemisphere to synchronize product development and downstream PLM processes thereby accelerating time to market, increasing revenue, and reducing product lifecycle costs. Founded in 1997, Right Hemisphere is a privately-held, venture-funded corporation based in Silicon Valley and Auckland, New Zealand.
