

# Right Hemisphere® Deep Publish™ Datasheet

- Lower cost of adopting 2D and 3D graphics across enterprise
- Increase revenue via graphically rich and differentiated presentations and documents
- Lower operating costs via improved product communications
- Extend the use of 3D across the enterprise
- Leverage industry standard desktop applications
- Improve quality of internal and external communication
- Eliminate the need for engineering help when 2D and 3D graphics are required

## Deep Publish™ At A Glance

Right Hemisphere's Deep Publish lets you easily publish, view, and share 2D and 3D graphics using Microsoft™ PowerPoint™, Word™, Excel™ and Adobe® Acrobat®.

With Deep Publish you can:

- ▶ Publish 2D and 3D graphics in Microsoft Office and Adobe Acrobat
- ▶ View and interact with 2D and 3D graphics in Microsoft Office, Adobe Acrobat, and/or on the Web
- ▶ Easily share 2D and 3D graphics

Designed for non-engineering professionals, Deep Publish leverages industry standard desktop applications and eliminates the need for engineering involvement whenever complex 2D and 3D product graphics are needed.

## Deep Publish Capabilities

### Publish 2D and 3D graphics in Microsoft Office and Adobe Acrobat

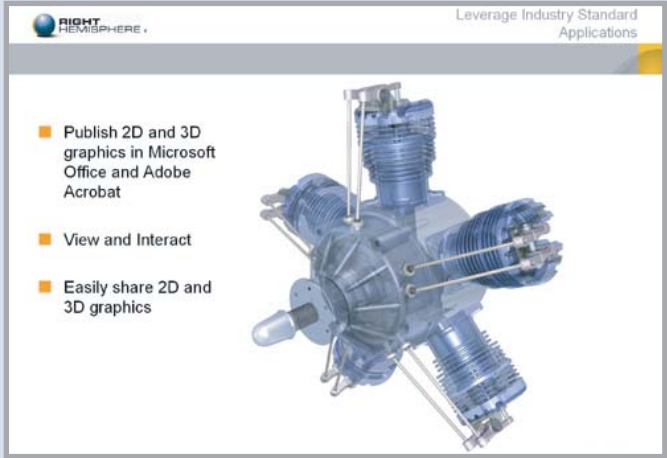

- Use industry standard desktop document formats including Microsoft™ PowerPoint™, Word™, Excel™ and Adobe PDF
- Import leading formats including: .3ds, .lwo, .lws, .dxf, .obj, .rh, 3dm, .wrl, Sketchup, FBX directly into the document
- One click publish to Adobe PDF

### View and interact with 2D and 3D graphics within Microsoft Office, Adobe Acrobat, and/or on the Web

- Pull apart objects directly in the 3D scene
- Measure angles as well as many kinds of distance measurements including arc centers, surfaces, edges and more.
- Add markups and notes for effective collaboration
- Display model views and animated steps
- View cross Sections
- Display model views and animated steps
- Zoom, pan and rotate
- Display parts lists associated with 3D scene
- Browse parts via built-in metadata browser
- Playback 3D animations

## Easily share 2D and 3D graphics

- Share published MS Office 3D content with standalone executable of Right Hemisphere Deep View
- Support for Microsoft Vista OS and Office 2007
- Share published MS Office 3D content with standalone executable of Deep View

*Easily publish and share 2D and 3D graphics in Microsoft's PowerPoint application*

## Right Hemisphere

Right Hemisphere is the leading provider of enterprise product communication and collaboration solutions enabling manufacturers to optimize their global product development, launch, and support processes. Organizations have invested in operational processes and IT systems to improve product lifecycle efficiencies, yet delivery of precise and up-to-date product information to the extended enterprise in a timely, efficient and usable form is difficult today. Right Hemisphere maximizes knowledge transfer efficiency of product information to downstream stakeholders by automatically publishing product information readily available in CAD, PLM, and ERP systems into common document formats and business applications

Over 500 innovative manufacturers, including five of the top six automotive OEMs and nine of the top 10 U.S. aerospace and defense contractors rely on Right Hemisphere to dramatically accelerate time to market, increase product and services revenues, and lower product communications costs.
